PROFESSIONAL EXPERIENCE

Web Developer

Jan 2025 - Present

Meztal | Atlas Senior Living | Birmingham, Alabama (Remote)

Web Developer responsible for the development and maintenance of websites for 38 communities across the United States. Specialized in implementing **UI/UX** best practices using tools such as **Figma**, as well as development with **WordPress** and **PHP**. Focused on **SEO** optimization to improve search engine rankings. Experienced in leveraging modern technologies such as **JavaScript**, **React**, and **Node.js** to develop new features and customized solutions. These enhancements have contributed to increasing website performance by up to 30%, aligning client needs with business objectives.

QA Tester Engineering

Feb 2024 - Jan 2025

HCLTech | WhatsApp Tester | Zapopan, Jalisco, Mexico (On-site)

QA Tester responsible for ensuring system quality through functional and web testing. Managed defect tracking using **Jira** and collaborated in agile (**Scrum**) environments. Utilized **Postman** for **API** validation and **Android Studio** for mobile testing. Executed **smoke** and **regression testing** and created test cases, reports, and defect documentation. Developed test cases for **new features** prior to production release and performed cross-platform testing across **iOS**, **Android**, **Windows**, and **macOS**. Used **AWS CloudWatch** for log monitoring, supporting continuous product improvement.

Front-end Developer

Nov 2021 - July 2023

Expocerámicas | Guadalajara, Jalisco, Mexico (On-site)

Front-End Developer responsible for developing and maintaining company websites using **HTML**, **CSS**, **JavaScript**, and **PHP**. Worked with **MySQL** databases to support dynamic content and data management. Implemented new features and design improvements for both eCommerce and informational websites, enhancing user experience. Contributed to increased website traffic and user engagement, achieving a 40% growth in online sales through optimized interfaces and performance improvements.
